Thanks so much again for hosting us. It was great seeing everyone one and meeting you, Connie! I am attaching the Hells Canyon Temperature SSC Biological Opinion from NOAA and will be following up on the other items soon.

All the best,
Rochelle

Subject: RE: Brief Summary of EPA and DEQ Meeting on Oct. 1st 2019

Connie,

We thought the meeting was a great success. Thank you so much for hosting our visit and it was wonderful to finally meet you, James, and Aron. Below are several additional action items in red. Many thanks to Debra for completing a couple of the items yesterday.

Here is a preliminary list of action items:

1. The pressing priorities for us to work together in the near future are the MDV and Aluminum Criteria promulgation;
2. Aron will have monthly calls with Lindsay on MDV (more frequent if needed);

3. Debra will send you the Variance MOU and the project schedules with the understanding that the project schedule is a dynamic document and may be adjusted in the future. [DONE]
4. The variance MOU needs to be updated;
5. We will continue to have the dialogue on temperature issue and both parties have the desire for DEQ to have a temperature strategy soon;
6. Rochelle will send DEQ the Hell's Canyon SSC BiOp [DONE]
7. DEQ will let EPA know if we need EPA or contractor support to evaluate the diel variability of T where the waterbody meets the current BBNC values as a 7day mean and for other rule development, e.g., variances. RL will follow up about technical support availability.
8. Identify EPA HQ/R10 staff who are going to ACWA nutrients meeting (RL follows up)
9. RL will follow up on SMS fine sediment WQS for WA (with Lindsay)
10. Request for Hanh to set up all-states conversation soon (possibly in Feb 2020)
11. RL will follow up on 1985 guidelines update - status

Subject: Brief Summary of EPA and DEQ Meeting on Oct. 1st 2019

Hi Hanh,

Good morning! I hope you and Rochelle will have a safe trip driving back home this morning. Thanks so much for driving here to meet with us. I think we had a productive meeting and gained better understanding of the priorities and challenges for EPA and DEQ.

Here is a preliminary list of action items:

1. The pressing priorities for us to work together in the near future are the MDV and Aluminum Criteria promulgation;
2. Aron will have monthly calls with Lindsay on MDV (more frequent if needed);
3. Debra will send you the Variance MOU and the project schedules with the understanding that the project schedule is a dynamic document and may be adjusted in the future. The MOU needs to be updated;
4. We will continue to have the dialogue on temperature issue and both parties have the desire for DEQ to have a temperature strategy soon;
5. Rochelle will send DEQ the Hell's Canyon SSC BiOp
6. DEQ will let EPA know if we need EPA or contractor support to evaluate the diel variability of T where the waterbody meets the current BBNC values as a 7day mean.

I am looking forward to working with you and your team!

Thanks again!

Connie
